# Contents

|  |     |
|--|-----|
| Preface—A Personal Note .....                          | vii |
| Acknowledgements .....                                 | ix  |
| Introduction .....                                     | 1   |
| <b>Part I Ancient Fragments of the Solar System</b>    |     |
| 1 Interplanetary Dust and Meteors.....                 | 5   |
| Interplanetary Dust Particles (IDPs) .....             | 6   |
| Lifetime of IDPs.....                                  | 6   |
| The Zodiacal Light.....                                | 7   |
| Photographing the Zodiacal Light.....                  | 8   |
| Collecting IDPs—No Job for an Amateur.....             | 9   |
| Physical Properties of IDPs .....                      | 10  |
| Deep Sea IDPs.....                                     | 11  |
| Collecting IDPs in Space—The Stardust Mission.....     | 12  |
| Meteors.....   | 14  |
| Sporadic Meteors.....                                  | 15  |
| Meteor Showers .....                                   | 16  |
| Early Radio Observations of Meteor Showers .....       | 18  |
| Meteor Outbursts and Meteor Storms .....               | 19  |
| The Great Leonid Meteor Storms .....                   | 20  |
| Techniques of Observing and Photographing Meteors..... | 20  |
| References and Useful Web Sites .....                  | 22  |
| 2 Meteorites: Fragments of Asteroids .....             | 23  |
| Asteroids in History .....                             | 23  |

|  |           |
|--|-----------|
| Main Asteroid Belt .....                                     | 24        |
| Asteroids and the Titius-Bode Rule .....                     | 24        |
| Discovery of the First Asteroids .....                       | 25        |
| Cataloging and Naming New Asteroids .....                    | 27        |
| From Asteroid Belt to Earth .....                            | 27        |
| Near-Earth Objects.....                                      | 28        |
| Trojan Asteroids.....  | 29        |
| An Important Job for Dedicated Amateur Astronomers.....      | 29        |
